

Empowering a Pan-European Network to Counter Hybrid-Threats

EU-HYBNET General Presentation

Elodie Reuge, European Organisation for Security

2nd of June 2021

The European Organisation for Security

- EOS is based in Brussels
- EOS is the voice of the European Security industry and research community.
- For more than 10 years, EOS has promoted the development of a harmonised security market.
- Domain of work divided into two main areas: Policy (through working groups) and Research (H2020, HEurope, ISF projects)
- Operating in 15 different countries, EOS Members provide security research, Solutions, and services across many security domains,
- Within EU-HYBNET, EOS is in charge of the DCE WP and is also involved in the WP dedicated to Surveys to Technologies, Research and Innovations

EU-HYBNET
