Added value

- Single disciplines cannot address **alone** the **complex** current societal challenges
- **Interactions** between STEM* and SSH foster multi, trans and inter-disciplinary approaches
- When designing **new policies**, we need to examine the **societal impacts** of science and research
- It is important to keep a '**human centric**' **focus** across all research areas
- SSH **across all** research and innovation areas: '**Horizontal issues**'

* *STEM: Science Technology Engineering and Mathematics*

Horizon Europe is expected to play a pivotal role for Europe to lead the social, economic, and environmental transitions needed to achieve European policy priorities.
